

Woodside Explorers

Tide Pool Exploring

at Fitzgerald Marin Reserve

Sunday, October 6th, 3:30 to 6:30

About Fitzgerald Marin Reserve: The reserve is considered to be one of the most diverse intertidal regions along the Western coast of the U.S. Scientists, studying the reserve for more than 70 years, have made original discoveries of more than 25 invertebrates and plants

Time: Sunday, October 6th, 3:30-6:30

Location: Group will leave from Woodside Town Hall at 3:30. FMR is located in Moss Beach.

Activities: We will divide into small groups to explore the tide pools at low tide. (low tide is at 5:11 p.m.)

Refreshments: Clam chowder and drinks after tide pool exploring.

Clothing: Multiple layers of warm clothing in anticipation of changing weather conditions, including rain

About Woodside Explorers:

Woodside Explorers is a program of the Woodside Recreation Committee focused on facilitating activities that enable town residents to learn about and explore the outdoor resources in and around our town. The intention is to host one activity per season and to provide interested residents with information so they can experience the activities at their convenience or as part of the seasonal event.

To plan for food please reserve space for attendance by e-mailing pgiurata@catalystresources.com
